   the total trade allowances. The project is approximately 33% complete. Director Bochenski gave an overview of
   the panic hardware change order, explaining that the code-required hardware for the two internal meeting

   manager and 1) request a write up of what he considered the extenuating Phase 1 schedule circumstances and
   2) ensure that contractors agree to the Phases 2 and 3 schedule and 3) establish that no further premium time
   would be approved for Phases 2 and 3 (barring any true extenuating circumstances).

After discussion, the board came to consensus that the current plan would be extended through June 30, 2017.

11. **REPORTS**
    Director Bochenski reported that Georgia Taliganis, President of the Friends, requested that an article appear in the next library newsletter that explains the transition of donor brick names, and invites residents to come in and take a picture or rubbing of their brick. During the discussion of the bricks Director Bochenski reported that the library had received a quote of $2,000 to salvage the bricks. Trustees agreed that we should try to do that, understanding that the bricks may not come off unbroken. Trustees requested that Director Bochenski see if the Friends would be willing to split the cost of removal. If the bricks are removed, the library could make them available for owners to pick up by a deadline, perhaps the end of the year.

    Trustees discussed the dedication plaque for the construction project, and evaluated options such as adding a new plaque in the current location, or possibly relocating all of the plaques to a less prominent location. Trustees requested that Director Bochenski get prices for both options, and the Board will discuss further when cost information is available.
