Returning Downloaded Items Early

Though items automatically expire at the end of the lending period, you can return downloaded items early from your Adobe Digital Editions library.

1. Connect your Nook to your computer via USB.
2. Click on the book cover and select **Return Borrowed Item**.
3. On the drop down menu, select **Return**.

For more help with OverDrive or any of our Digital Library services, stop by the Information Services desk or call 847-677-5277 x293 to request a one-on-one appointment with a librarian.

eBooks for Nook Devices

Getting Started

Step 1 Install free Adobe Digital Editions (ADE) software for Windows or Mac on your desktop or laptop computer.

<http://www.adobe.com/solutions/ebook/digital-editions/download.html>

Browse, Borrow, & Download

Step 1 On a computer, tablet or smartphone visit the library's eBook catalog, www.mymedimall.net.

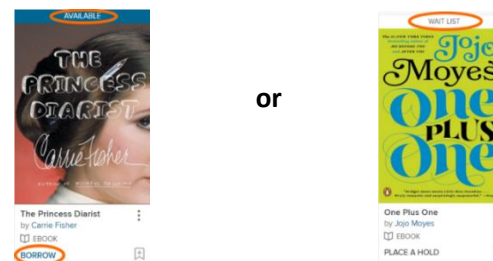

Step 2 In the upper right hand part of the screen, tap **Sign In**. Follow the prompts to choose your library and enter your library card number (no spaces).

Step 3 To manage your account, click on **my account** on the right side of the screen. From here, you can manage checkouts, holds and preferences.

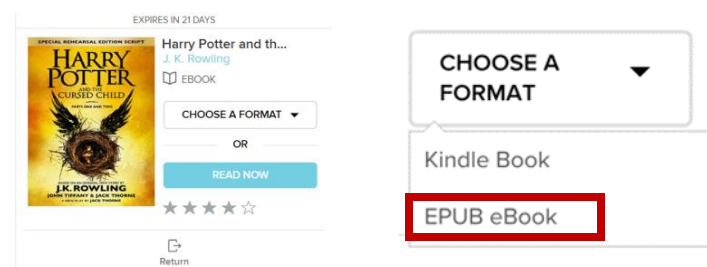

Also at the top of the screen, you can get **Help** and **Search** for specific titles or use Advanced Search.

Tip: To see which eBooks are available now, tap on **Collections** on the left side of the screen. To see all available titles under a specific format, tap **Available Now**. You can sort results by **Title, Author, Popularity, or Date Added**.

Step 4 When you find a book you like, tap the cover, then tap **Borrow**. If the title is already checked out, you can also tap **Place a Hold** and receive notification when it becomes available.

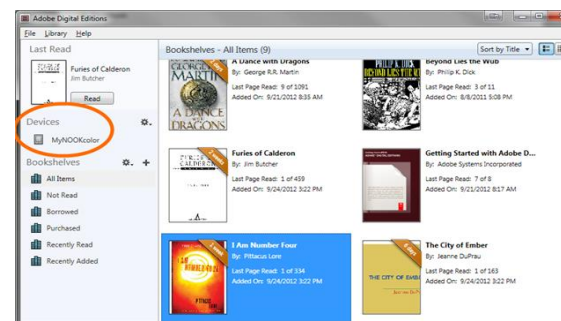

Step 5 After you borrow an eBook, select the  icon to go to your **Loans** page. From there, use the Choose a format button to select **EPUB eBook** format.

- If prompted, authorize ADE with a free Adobe ID or an OverDrive account (this is required for downloading Adobe [DRM-protected] eBooks).
- Your downloaded book will open in ADE.

Step 6 To transfer an eBook to your eReader, open the **Library View** in ADE (click the Library button in the top-left corner, if needed). From there, drag and drop the eBook into your eReader, which should appear on the left under **Devices** when connected to your computer via USB.

Once the transfer is complete, you can disconnect your device and start reading it like any other eBook.
