Lynda.com Learning Paths

Industry experts teach you the knowledge and skills to start your career. Find your path. Start your journey.

Become a Video Editor

Get the skills you need to become a professional video editor. Using today's best digital tools, you'll get a solid foundation in everything from story structure and editing techniques to video compression and color correction.

Become a Digital Illustrator

Bring your illustration talent into the digital realm and discover how to create art for advertising agencies, design studios, and the entertainment industry. In this path, you'll learn to create logos and illustrations using today's best design software for digital illustrators.

Become a Graphic Designer

Graphic designers create visual concepts that inspire, inform, and transform. Use industry-leading tools to build innovative design projects and discover the skills needed to become an in-demand visual thinker and communicator.

Become a Multimedia Specialist

Learn how to combine your creative interests—video, graphic design, writing, and sound—and design multimedia content that entertains, informs, and inspires. From video production and script writing to editing and audio recording, learn the essential skills and best practices you need to become multimedia specialist.

Become a 2D Digital Animator

Use your creativity and technical skills to bring characters and stories to life as a 2D digital animator. Learn how to go from concept to finished animation, using industry-standard tools and the latest techniques from prominent animators in the business.

Become a Print Production Professional

Whether it's a business card, newspaper, or magazine, learn to produce professionally finished print jobs. Know what it takes to oversee the life cycle of a print job, from using essential design tools and managing the stages of production and delivery to expert strategies for communicating with vendors.

and many more!
